2.1 Introduction

- 2.1.1 The Client named the Appendix to “ITC” will select a firm among those invited to submit a proposal, in accordance with the method of selection detailed in the appendix. The method of selection shall be as indicated by the procuring entity in the Appendix.
- 2.1.2 The consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the Appendix “ITC” for consulting services required for the assignment named in the said Appendix. In such a case the highest ranked firm of the technical proposal shall be invited to negotiate a contract on the basis of scale fees. The proposal will be the basis for Contract negotiations and ultimately for a signed Contract with the selected firm.
- 2.1.3 The consultants must familiarize themselves with local conditions and take them into account in preparing their proposals. To obtain first hand information on the assignment and on the local conditions, consultants are encouraged to liaise with the Client regarding any information that they may require before submitting a proposal and to attend a pre-proposal conference where applicable. Consultants should contact the officials named in the Appendix “ITC” to arrange for any visit or to obtain additional information on the pre-proposal conference. Consultants should ensure that these officials are advised of the visit in adequate time to allow them to make appropriate arrangements.
- 2.1.4 The Procuring entity will provide the inputs specified in the Appendix “ITC”, assist the firm in obtaining licenses and permits needed to carry out the services and make available relevant project data and reports.
- 2.1.5 Please note that (i) the costs of preparing the proposal and of negotiating the Contract, including any visit to the Client are not reimbursable as a direct cost of the assignment; and (ii) the Client is not bound to accept any of the proposals submitted.

The tenderer shall sign a declaration that he has not and will not be involved in corrupt or fraudulent practices.

The overall objective of the proposed project is **“to build a devolved governance structure to enable vulnerable communities’ greater ownership and access to climate finance for adaptation investments to increase their resilience and adaptive capacity.”** The project aims to substantially increase the potential to promote sustainable economic development and enhance resilience to climate shocks by up-scaling similar ongoing work by the Adaptation Consortium under the National Drought Management Authority in target counties through three main components:

Component 1: Support county governments to establish/strengthen climate finance mechanisms through relevant legislation in order to finance community prioritized public good investments that promote climate resilient growth and adaptive livelihoods.

Component 2: Support the development and delivery of demand led and decentralised climate information services in target counties.

Component 3: Finance community led adaptation investments (The priority adaptation investments will be in the water and livelihoods sector and will be determined and detailed through a consultative process. This will enable communities to take control of their adaptation strategies in keeping with the principles and spirit of devolution in Kenya).

The Client agrees to pay the Consultant according to a schedule of payments linked to the delivery of certain outputs, usually reports. Lump-sum contracts have the simplicity of administration, the Client having only to be satisfied with the outputs without monitoring the staff inputs and should be used for large Assignments in for example Design; Engineering; Supervision and Management Services; Master plans; Economic and Feasibility studies; and Surveys.

2. The Contract includes four parts: Form of Contract, the General Conditions of Contract, the Special Conditions of Contract and the Appendices. The Client using this standard contract should not alter the General Conditions. Any adjustment to meet any specific project features should be made only in the Special Conditions.
