NATIONAL TENDERS

The Global Environmental Facility (GEF) Cycle 7 funded project “Strengthening forest management for improved biodiversity conservation and climate resilience in the Southern Rangelands of Kenya” (hereby referred to as GEF-7 SFM Project) is being implemented by the National Environment Management Authority of Kenya (NEMA) in close coordination with the International Union for the Conservation of Nature (IUCN).

The project’s goal is to support a functioning and resilient dry land forest landscape that supports sustainable economic/food production through integrated natural management. Establishment of water harvesting, storage and access infrastructure has been identified as one of the activities to achieve the set outcomes of the program.

Part of the financing has been set aside for various works projects in Kajiado and Narok County. The Authority is therefore advertising the bellow listed tender opportunities:
